Google Scholar is a useful tool for finding scholarly information on the web, including articles and books.

In this workshop, we'll explore Google Scholar and investigate the types of search results (conference papers, preprints, anthology chapters, journal articles, and more). We'll also customize Scholar preferences to facilitate full-text access from home or office computers. Time permitting, we'll explore Google Books.

Workshops are open to all City Tech faculty members.

DATE: Wednesday, October 28, 2009
VENUE: Rm. A441, 4th Floor, City Tech Library (Atrium Bldg.)
TIME: 1.00 - 2.00 p.m.

http://library.citytech.cuny.edu

RSVP is encouraged to Prof. Maura Smale, msmale@citytech.cuny.edu or 718-260-5748.
