A multimedia exhibition on the history of City Tech, and the public art mosaics created in 1962 by Nathaniel Choate and Joseph von Tury for display on the facade of the new Klitgord Center.

The Center, named after Dr. Otto Klitgord, the college's first president, was razed in 2013 for a new academic complex. The mosaics were preserved by Dr. Russell Hotzler, the college's current president.
