

...you are cordially invited to a  
curricular innovation workshop:

# BRINGING PASSION TO INTRODUCTORY STATISTICS & RESEARCH METHODS IN YOUR COURSE:

## A SUPPORTING, MULTIDISCIPLINARY PROJECT-BASED APPROACH

Through funding from the **National Science Foundation**, we have developed a **passion-driven**, project-based experience that provides greater access to the quantitative research process for large numbers of students and combines new learning materials and innovative teaching strategies for exposing students to a multidisciplinary model of quantitative inquiry.

The curriculum provides training in the flexible application of knowledge, opportunities to analyze data in real-world contexts, and a design that promotes fluency with statistical software.

**LISA DIERKER, PHD**  
**WESLEYAN UNIVERSITY**  
**NSF IUSE GRANT #1820766**

**MONDAY, MARCH 18, 2019**  
**2-3:15 PM ♦ NAMM 227**

**RSVP:** [FACULTYCOMMONS@CITYTECH.CUNY.EDU](mailto:FACULTYCOMMONS@CITYTECH.CUNY.EDU)
